Want to swim?

The Upland High School pool is open for recreational swimming daily from 1 to 3 p.m. and 3:30 to 5 p.m., with admission of 25 cents for children under 12; 30 cents for students 12 to 18; and 40 cents charged for those 18 and over. The school is located at Foothill Boulevard and San Antonio Avenue.

Forest fire hazard

The San Bernardino National Forest office has issued a fire closure statement of some portions of the forest during the season of high fire hazards.

The area above Upland is affected and anyone wanting further information on rules and regulations in the forest area during the high fire danger season are asked to stop at the Ranger Station on 24th Street and Euclid Avenue prior to entering the Mt. Baldy area.

It is unlawful to possess or shoot fireworks in the City of Upland, city officials note. The non-fireworks ordinance was put into effect in 1947, and a stricter ordinance was drawn in 1962. Officials said the ordinance's purpose is to protect life and property. After an official study here, it was decided that none of the fireworks could be called "safe," and an ordinance was adopted to ban them.

Cancer Dressing station

The Upland Memorial Cancer Dressing Station will be open July 7 from 9:30 a.m. to 2:30 p.m. The hours of work are optional and those wishing to stay through the lunch hour are asked to bring a sack lunch. Coffee, tea and dessert will be provided. For further information, call Mrs. Dale Gross, chairman, 982-6003.

Lucky 13

Even though the Fire Department had the number 13 figure in its week's business they are not superstitious. Here's the rundown for the week. There were 13 calls for fire and 13 calls for rescue. Ten fires were of brush and grass and one a vehicle fire in a camper on the freeway. There were 7 calls for the resuscitator, 3 first aid calls for home and industrial accidents, and 3 on the freeway. Two of the freeway calls were very serious accidents where the department cooperated with the Ontario Fire Department. More than an hour was required in each case to extricate the victims from their vehicles.

High school budget

The Chaffey Union High School District will hold a public hearing on its $12 million budget on July 20, at the administrative offices, 211 W. 5th St., Ontario.

A tentative budget of $12,109,594 for the 1970-71 school year was adopted June 15 by the board of trustees. This figure includes total operating expenditures of $11,699,727 and reserves of $409,867.

The district will levy a general purpose tax rate of about $2 per $100 of assessed valuation to help finance the budget. Voters authorized the district last October to levy a maximum general purpose tax of $2.20 for a three-year period. The district pledged to assess $2 the first year, $2.10 the second year and $2.20 the third year.

Of the district's reserves, $300,000 will come from the sale of a 35-acre parcel of property owned on Philadelphia Street between Sultana and Campus Avenues. Originally purchased as a high school site, it was abandoned in favor of the present Ontario High School site. It went into escrow last month for sale to the Magnolia Land Co. of Gardena and will be used for a trailer park development.

The district will return to a full school program in 1970-71 after reducing last year's program to a five-period day because of a shortage of funds.

The total tax to be levied by the district amounts to approximately $2.31, including the $2 general purpose tax and such additional permissive taxes as employe retirement expenditures, social security, health and welfare benefits, community service, adult education and others.

Respite from the heat

Members of the Diamond Bar-Walnut Valley Mother of Twins Club prepare ice cream cones for their excited offspring, who can't wait for the club's family ice cream social, to be held July 9, 8 p.m., at the Diamond Bar home of Mrs. Gordon Schaffer, 21749 Birch Hill Drive. Mrs. Bill Blair, left, dishes up the ice cream for her twins, flanking the freezer at front. At back, left, is Mrs. Jerry Tramonto with Julie and Christie. At right, Mrs. George Vlatos with Gina and Jackie (who peeks in pail to make an independent judgment of the quality of the refreshments).

At the recent Old Baldy Council Scout-O-Rama, the LaVerne Police Department sponsored Explorer Post carried off top honors, winning both the blue ribbon in proficiency and the President's ribbon. Shown from left are Explorer John Ochetti; Beverly Ynclan; Sgt. Gayle Heller; Sgt. Ken Wedin; Lt. My Dad

by Joyce Zangri

Who would swim with me
at the pool,
And come to activities at
my school?
Who brought me a music
box with a lovely song,
And reprimanded me
when I was wrong?
Who comforted me when I
was frightened,
And sat at my bedside till
my fears were light-
ened?
Whose pockets were full
of candy and gum,
And whose nickname for
me was "Sugar Plum"?
Who gave me bikes and all
kinds of toys,
And let me play with other
girls and boys?
Who came home tired, but
still would play,
Not just once, but nearly
every day?
Who brought kittens peer-
ing from his pocket,
To delight me, his little
moppett?
Who worked hard for me,
my sister and brother,
And who tried to make
things easier for
mother?
Who encouraged me when
my confidence waned,
And rejoiced in my vic-
tories whenever they
came?
Although he may think I
forgot what he did,
All these things I re-
member as a kid.
Who walked with me up
the aisle,
And married me off with
pride and style?
Who gave these precious
memories to me?
My wonderful father, as
dear as can be.

Journey to Jupiter to continue through July

"A Journey to Jupiter.. and Beyond" will compress a nine-year journey into a few short minutes, to show the phase changes of Jupiter and a landing on one of Saturn's ten moons.

The trip will duplicate the travel of the projected space probe planned by the National Aeronautics and Space Administration (NASA) for 1977. Mt. San Antonio College's Planetarium will feature this lecture series every Wednesday evening at 7:30 p.m., on July 1, 8, 15, 22, and 29. (The Planetarium will be closed during August and September. Regular programming will resume in October.)

NASA plans two launches, one in 1977, and another in 1979, which will travel to the outer limits of our solar system, to Pluto.

During the lecture, the audience will follow the planned path of the first launch in '77, finally reaching Pluto, and viewing the Sun as a tiny dot four billion miles away.

All lectures begin promptly at 7:30 p.m.; no one will be seated after that time. Reservations must be made for groups; and it is highly advisable to call for reservations for individuals. Seating is limited and will be allocated on a first-come, first-served basis, reservations having priority. No children under five will be admitted. Older children must be accompanied by an adult.

Reservations may be made by calling the MSAC Student Center hostess, (714) 595-2211, extension 213.

FIESTA CELEBRATION

What a wonderful celebration our fiesta was over the week-end and if you missed the Mariachi Band of Caborca (our Sister City in Mexico) you really missed a talented group. They are great and very hard working. They just never seemed to get tired.

The men don't speak English, but they seemed to understand. Frank Ayala of KKAR and a director of the Sister City Committee, did a fine job of emceeing. He does speak Spanish so was able to communicate with the band.

The UTC Queen candidates were lovely, and we wish Queen Lara a happy reign. The booths were busily dishing up food, and drink and cotton candy faces and one-shoed or no-shoed children told the story of the kiddie garb of the day.

I hope the Caborca Mariachi Band will become a tradition for the annual birthday celebration.

A doff of the sombrero to John Meyer, president of UTC merchants and to the merchants plus to Tony Malone, chamber manager, and Frances Bowman, his side-kick; to the Sister City Committee; to the participating organizations and finally to Tom Lucero, Sister City president, and Harvey Stone Sister City vice president for chauffeuring the band from the border to Upland.

JOIN SISTER CITY

While we are on the subject of Fiestas and such, why not join the Sister City program. It's inexpensive, but will pay you rich dividends. It costs $2 for each membership, $5 for sustaining members and $10 for organizations or sponsoring members. For further information call Tom Lucero, president, 985-4107 or Zella Stone, 982-1369.

UP, UP AND AWAY

Preliminary population figures from the 1970 census shows Upland as 32,624. This is up over our 1960 figure of 15,918. Would you believe we're getting younger and people are getting more involved in town affairs?

FAKE DIPLOMA

If you wish to get a College diploma in a hurry don't stop in Upland. One man did, and on a routine check police found a fake diploma, conducted an investigation and turned up a suspect who was arrested for $100,000 jewelry thefts.

HAPPY BIRTHDAY USA

We wish the bells that ring out on the Fourth of July would ring all year to indicate that there are some Americans who care; that the flag could fly without dissenters burning it or using it disrespectfully; that freedom of speech was a reality and not just something the rebellious allowed only for themselves; that a person could have security in homes without the "no knock" policy; that people who come in the name of "peace" would not make mockery of our courts; that "pursuit of happiness" meant just that; that those who howl in the streets yelling, looting and burning would get a job and earn their own way. Granted our country has its faults, but it's all we've got and after its long life, it still loves us even if we don't leave it.

Happy Birthday

Councilman John McCarthy holds the anniversary cake for the UTC Fiesta which was baked specially for the celebration by the Upland Bakery. Looking on are the UTC queen candidates, Isabella Lara, Dawn Brockie, Julie Savage, Marta Lucero, Dora Luna, and Dianne Gavigan. The Upland celebration was held last weekend, heralding the third anniversary of the opening of the town center concourse and kiosk.

Fairy helpers

Dancers of Suzanne's School of Dance, Upland, pose in one of their scenes from the "Happy Story Ballet," a dance recital held by the school in the Chaffey High School Auditorium. The youngsters were among 125 children who participated. Shown are, (back row) Mary Lisa Misskian, Patricia Duck, Laura Cooper as fairy princess, Rebecca Arellano and Mary Katherine Moore. (Front row) Claire Cramer, Karen Straley, Diana Thomas, Liza Abbott, Lori Kirskbaum, and Lee Ann Culp.

Scouting around

GS Troop 1085

Combining a family potluck dinner with a Court of Awards were members of Girl Scout Troop 1085. Some 80 people attended the event which was held at the United Methodist Church, Upland. The 25 member group is sponsored by the church.

A review of the troops activities was given by Mrs. Armitz, leader of the group. The girls made Christmas decorations for the church and for shut-ins; conducted a flag ceremony at Citrus School PTA; made table decorations for and served as hostesses for the Woman's Society guest day held at the church, and carried out various scouting activities.

Awarded badges and honors were Carrie Amick, Lisa Bonser, Melinda Clark, Sherry Eix, Pam Frye, Tracey Hesson, Laura Hollander, Diane Kessler, Suzanne Lloyd, Lisa Mierau, Lisa La Budda and Linda Groggin.

Hiking club

Students take hike

The Alta Loma High School Hiking Club enjoyed its last hike of the school year with a 17 mile hike in the San Gorgonio Wilderness Area. The hikers left Poopout Hill in the Barton Flats area and took the Dollar Lake trail to the top of Mt. San Gorgonio, the highest peak in Southern California. At the 11,502 foot summit the students enjoyed fresh air and lunch.

The descent was made via a new trail to Dry Lake where the group cooled their feet before returning to the car.

At the conclusion of the hike (the 52nd outing since the club started 5 years ago) a plaque was presented to Mr. Balding for being "an Outstanding Advisor."

Those attending the hike included Karen Booth, Chuck Chojnacki, Pam Clayton, John Dumont, Marty Bell, Advisor Martin Balding and his son, Harold Balding.

Lisa Gray chosen for Girls State

Lisa Gray, daughter of Mr. and Mrs. Robert D. Gray, 1176 N. Euclid Ave., Upland, is the American Legion Auxiliary 73 Unit's Girl Stater this year.

She will be among the 567 girls who will go to Davis for the 27th session of California Girls State. She leaves July 6.

The Legion is proud of its Girls State program and has had a waiting list since 1965. The girls who are all creeds, colors and nationalities live in close harmony.

56¢ a week more puts you in the white house.

All-Electric

Gas

You deserve the comfort of an all-electric Medallion Home. And for an average of only 56¢ a week more in utility bills you can have it.

The cost of electricity for the average all-electric Medallion Home is only 56¢ a week more than the cost of both gas and electricity for the typical home using gas. (Established in a survey of more than 8,000 homes. Bills were typical of a family of four living in a 3-bedroom home.)

Half the homes surveyed were all-electric Medallion Homes, where *everything* was run by electricity —no gas. Electric cooking. Electric heating. Electric water heaters.

The other half of the homes surveyed used gas.

Here are the findings:

	ALL-ELECTRIC HOMES	GAS HOMES
Average Weekly Cost of Electricity	$5.44	$2.61
Average Weekly Cost of Gas	-0-	2.27
Total Weekly Cost — Gas and Electricity	$5.44	$4.88
Extra Weekly Cost of All-Electric Homes	.56	

Wouldn't you prefer a clean, cool, flameless electric kitchen? A quiet, clean, space-saving electric water heater? Flameless electric heating with room-by-room temperature controls? An all-electric Medallion Home has them—plus built-in provisions for the all-electric future.

For the good clean life—live electrically. It's more than worth the 56¢ a week.

The team will compete in this distinguished international high power rifle competition at Bisley, England on July 21.

The U. S. will be the defending champion, having won this match in 1969 at Ottawa, Canada.

All countries entered in the event, which is nearly 100 years old, will be represented by 20 men teams. Each competitor will fire 15 rounds at 800, 900 and 1000 yards, which makes the match a grueling test of ability and endurance.

Two alternates, a team captain and a coach, will round out each squad. The U. S. team selection was based on scores fired at the National Highpower Rifle Championships at Camp Perry, Ohio, last August.

James Whitney of Reseda, Calif., will captain the squad for the fourth straight year.

The Palma Match originated in 1876 at the Old Creedmoor Range on Long Island when Irish, Scotch, Canadian, Australian and American teams fired at the same distance as the match is shot today for what was then known as the Centennial Trophy.

Singers near goal

The Francis Avenue Singers have almost reached their dream of building a new music pavilion in Upland Memorial Park.

The dream started back in 1965 when the singers under the direction of Garland Rogers sang at the Upland Host Lion Club Fish Fry and found that standing on picnic tables was not a help to good singing as their voices just drifted away.

The group, which was formed in September of 1964 after a Francis Avenue Block party, decided after the Fish Fry to build a music pavilion in the park. They started work on their project and had a model of what they wanted prepared by Tom Harris.

Tragedy struck in the Spring of 1967 when Garland Rogers was killed in an automobile accident. The group decided to go ahead with the plans for the pavilion and call it the Garland Rogers Pavilion in memory of Rogers.

They have worked on this project for three years and no job was too small to get their project started. Their activities have included a bake sale, several rummage sales, and an annual dance in January. Their latest fund raising project was a sale of their record called the "Francis Avenue Singers sing."

The group had also decided to donate the pavilion to the city and with this in mind appealed to the city council for the remaining funds of $2,000 to build the pavilion.

The council after some discussion decided they could give $1,000 if the singers would get the other $1,000. It was agreed and the singers moved ahead at a rapid pace.

Saturday, June 13, at 2 p.m., the group gathered at Memorial Park and held ground breaking ceremonies for the pavilion. The singers are not sure when the project will be completed but hope it will be in time for the Fish Fry in August.

Participating in the ceremonies were: Elwin Alder, city manager, emcee; Bert Harris, Pledge of Alligance; George McElroy; invocation; Mayor George Gibson, welcome; Ken Holme, review of the project; remarks, Jeanette Harris and Alice Rogers; closing remarks, Chuck Rowland and instead of singing the singers played a record that was made by the late Garland Rogers singing "How Great Thou Art."

FA singers memorial

The first spade of dirt is turned over for the Garland Rogers Memorial Pavilion. Doing the honors is Mrs. Alice Rogers, widow of the late Mr. Rogers, in whose name the pavilion will be built in Upland Memorial Park. The project was undertaken three years ago when Mr. Rogers was killed in an auto accident. The Frances Avenue Singers were formed before Mr. Roger's death and since that time the group has poured all of its time and energy into building this memorial which will benefit all of the community. It is hoped the pavilion will be ready sometime this summer. Participating in the ground breaking ceremonies were the rest of the FA Singers, Jeanette and Bert Harris, Bunnye Rowland, Mrs. Rogers, Dolores Houghland, Ken Holme, Donna McLauchlin, Chuck Rowland, Audrey Holme and Barbara Munz.

Cliff Robertson is honorary chairman for OPARC gala

Bal Des Enfants Cheris

Cliff Robertson, bearded for an upcoming movie role, was greeted at Ontario International Airport by OPARC representatives to confer on plans for the fund raising Bal Des Enfants Cheris to be held on opening day of the Ontario Motor Speedway. Funds will go to aid retarded children in the valley. From the left are Mrs. Thomas Caldwell, Mrs. Robert Jensen, Robertson, Mrs. Howard Snider and Mrs. Jack Pierce.

Bal Des Enfants Cheris was launched with the announcement that Cliff Robertson, star of stage, television and screen and 1968 Academy Award winner for "Charley," is to be its honorary chairman.

This gala event, the biggest to hit the West, will be held September 4, at the Ontario Motor Speedway as part of the opening festivities of the track.

It is sponsored by a new auxiliary formed solely to raise funds for further education and vocational training of retarded children through the facilities of the Ontario Pomona Association for Retarded Children, a member of the National Association for Retarded Children.

Mr. Robertson appeared at the general meeting of OPARC Women's Auxiliary, bearded, and said of the beard that it was "for a movie, not a movement."

In accepting the honorary chairmanship, he explained he had become permanently wedded to the retardation program during the filming of "Charley" when he became personally involved with a young man in his twenties who served as a technical advisor for the movie and helped him see the problem from inside.

The young man had benefitted from attending a retardation center, had gone on to complete college, and indeed helped create the image that won the coveted Academy Award for the best performance by an actor in 1968.

The some 150 dedicated women of the auxiliary believe wholeheartedly in their goal that these children can become self-sufficient in their limited world by proper understanding and training.

Mrs. George Yetter, mother of a retarded child, is president of this newly formed auxiliary.

It was said of the organization by Mr. Robertson that it may be new, but the problem is very old, and it is most necessary to "Open the closet doors" for the families of retarded children.

This was further evidenced in the talk by Mrs. Lee Travers, principal of the Center, who quoted a parent as saying that when his child was born, he thought he had a vegetable, but instead he had been given a little girl after one year of education and physical training at OPARC Center.

For the Bal Des Enfants Cheris, which is to be an annual fund-raising event, the entire $25.5 million facility, including the Victory Circle area of the Ontario Motor Speedway, has been made available.

More than two thousand guests are expected,

Chance to use ideas

Let your gardening imagination go to work. Plant some fruit trees and train them against walls and fences in your garden. The results will be beautiful--the bright colors and interesting patterns will delight you.

Not only will you enjoy the patterns and the colorful foliage, but the trees will also yield tasty fruit for eating.

Many kinds of deciduous and evergreen fruit trees may be trained to grow against walls and fences. Among the deciduous forms are apples pears, plums, peaches, figs apricots and nectarines. Evergreen trees include citrus--oranges, lemons, limes, grapefruit, mandarines and tangelos--and loquats.

Train them flat against the wall in a U-shape or variations thereof, reaching out in a single or two-arm pattern. Pyramid-shape and Christmas tree patterns are also popular.

In Europe, where espaliered trees are frequently trained on stone walls, the walls absorb considerable heat and help the trees mature early. Stone walls aren't common here and the California Association of Nurserymen suggests as substitutes, redwood or wire trellises, redwood posts or durable galvanized wire.

Tie the branches and lateral growth of the tree with non-irritating binding material. C.A.N nurseries will have a selection of ties for you to use. As lateral growth appears you merely train it in the pattern you desire. Pruning and clipping, later, will create and maintain the symmetry or design you wish.

Upland Savings pays the maximum interest on insured savings. No other insured financial institution in America can offer you higher interest or more insurance, because all insured financial institutions' interest and insurance are regulated by governmental regulations.

Upland Savings is a part of America's insured savings system whose total assets exceed $150,000,000,000.00 (150 billion dollars) and where, throughout America, over 44,000,000 (44 million) savers save.

As a savings counselor, we suggest you look at more than the *stated rate of yield* of investments. If you had needed to "cash-in" your investment before maturity this past year, you would sustain substantial losses. In 1969 only Upland Savings would have returned your investment plus high earnings.

HOW TO GET AHEAD IN THE INVESTMENT GAME.

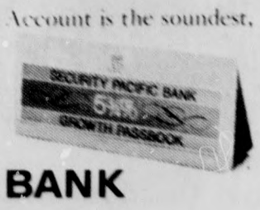

Open a 5¾% Growth Passbook Account.

Growth. It was designed to help your money grow; to offer an assured income on your investment—safely, with the highest legal interest rates a bank can pay on a plan like this.

Convenience. The 5¾% Growth Passbook Account gives you the convenience of a passbook with the high yield of certificates of deposit. If you wish, your money can enjoy the full 5¾% annual interest, compounded quarterly, for up to 5 years—instead of the usual 2. You may choose to defer all the interest until maturity, if your tax position would be more advantageous then. Or, if you prefer, you may collect the interest quarterly. It's up to you.

2 to 5 years. Open your account with a minimum deposit of $500; then add to it anytime with deposits of $100 or more. You select the maturity date—anywhere from 2 to 5 years on each deposit. Of course, you must leave your principal with us until maturity.

Flexibility. We think our Growth Passbook Account is the soundest, most flexible passbook plan you'll find. But even more important, it answers a lot of nagging questions about where to put your money—and get the most out of it.

Ole! Mexican Medley

CHICKEN MEXICALI

- 1 cup canned California pitted ripe olives
- 1 (3 lb.) chicken fryer
- 3 tablespoons olive or vegetable oil
- 1 cup chopped onion
- ½ cup chopped celery
- ¼ cup chopped green pepper
- 1 cup long-grain white rice
- 1 cup canned tomato sauce
- 1 ¼ cups water
- 1 ½ teaspoons salt
- ½ teaspoon oregano
- 2 cups cooked or canned peas
- 1 canned pimiento, cut into strips

Cut ripe olives into halves. Heat oil in large saucepan. Add chicken and brown well. Remove chicken from pan. Add onion, celery, green pepper and cook until tender but not brown. Add rice and mix well. Stir in tomato sauce, water, salt, and oregano. Bring to a full boil and stir mixture very well. Add ripe olive halves. Arrange chicken on top of mixture. Cover tightly and cook over low heat for about 40 minutes or until rice is tender and liquid is absorbed. Add peas and cook just enough to heat peas. Arrange on serving dish and garnish with pimiento. Makes 4-6 servings.

BRUNCH CASSEROLE

Brunch can be as vivid and exciting as the imagination of the hostess. This Enchilada Brunch Casserole rises to the festive occasion. It combines the intrigue of Mexican cookery with an American favorite, sausage and eggs. Tortillas are layered and topped with a flavorful enchilada sauce and grated cheese. And the enchilada sauce is such a breeze to make. Just add tomato sauce and water to the pre-blended seasonings and the sauce is ready in a matter of minutes. Why not add this unusual dish to your brunch repertoire? It's a winner!

- 1 pkg. Lawry's Enchilada Sauce Mix
- 1 can (8 oz.) tomato sauce
- 2 cups water
- ¼ cup salad oil
- 8 corn tortillas
- 2 cups grated Cheddar cheese
- 4 to 8 pork link sausages, cooked, drained
- 4 to 6 fried eggs
- Avocado slices

Combine Enchilada Sauce Mix, tomato sauce and water. Bring to a boil; reduce heat. Simmer uncovered 15 minutes; stirring occasionally. Heat oil; fry tortillas, one at a time turning once, until soft. Drain. Arrange 4 tortillas in bottom of 2 quart casserole. Pour sauce over tortillas. Sprinkle with ½ cup cheese. Top with remaining tortillas and cheese. Arrange sausages on top. Bake, uncovered, in 350°F. oven 15 minutes. Place eggs and avocado slices on top; serve immediately. Makes 4 to 6 servings.

CHILI CUERNAVACA

- 1 cup sifted regular all purpose flour
- 1 cup yellow cornmeal
- 2 tablespoons sugar
- 4 teaspoons baking powder
- ½ teaspoon salt
- 1 egg
- 1 cup milk
- ¼ cup soft shortening
- 3 slices bacon, cooked and crumbled
- 1 can (15 or 15½ oz.) chili, with or without beans
- 1 cup shredded Cheddar cheese

Sift flour with cornmeal, sugar, baking powder and salt into medium bowl. Make a well in center of dry ingredients; add egg, milk and shortening. Beat with rotary or electric beater till smooth, about 1 minute. Stir in bacon. Spoon ⅔ of the batter into a well-greased 10-inch pie pan; spread batter evenly over the bottom and sides of pan, but not the rim. Pour chili into center; spoon remaining batter around edge. Bake at 425 degrees for 20 to 25 minutes, or until cornbread tests done. Sprinkle top with cheese and bake 1 minute longer, or until cheese melts. Makes 4 to 5 servings.

A message to future teachers

An outstanding American educator has charged that teachers and school administrators are far more interested in measuring where the money goes to educate children than in measuring the results of the enterprise.

Dr. Leon M. Lessinger, Callaway Professor of Education at Georgia State University and recognized as one of America's foremost educators, made the charge in a commencement day address to graduating students of La Verne College on Sunday, June 7.

A majority of the La Verne College graduates annually enter the teaching profession as their chosen field. College President Dr. Leland Newcomer conferred degrees on 171 graduates at that time.

A product of the California school system himself, Lessinger borrowed a leaf from the popular "Peter Principle" to label his address "Robbing Dr. Peter to 'Pay Paul;' Accounting for Our Stewardship of Public Education."

"Professor Peter's Principle explaining why things always go wrong is too impressive. I'd like to 'rob' Dr. Peter on this commencement day to suggest some constructive ways to 'pay Paul'--to steer a course for accountability to our citizenry for better results, improved service and answerable decisions.

"What Dr. Peter is showing us I believe is that bureaucracy tends to be self-regulating; cut off from the control and assessment of those outside it and therefore not accountable to the client or citizen for whom the organization or institution was established.

"I have the counter principle to Peter; it is the Principle of Public Stewardship Through Accountability.

"It states: independent, continuous and publicly reported outside review of promised results of a bureaucracy promotes competence and responsiveness in that bureaucracy," said Lessinger.

Appointed Associate Commissioner of the Bureau of Elementary and Secondary Education in 1986, Lessinger examined the past of education when there was a time when, if a youngster was failing in school, he could drop out and still get some kind of a job.

Lessinger stated that demands for participation in education decision-making processes by such blocs as "teacher power, student power, black power and parent power" constitute a new politics of education.

He said that as long as public funds support the education of our young there is no possible way to keep politics out of the school system.

The real problem, Lessinger states, is the danger of that professional decision-making will be entirely abandoned (because of the pressure groups) and education regarded as a populist free-for-all in which every man has an equal say.

"The perhaps nasty, but nonetheless solid, truth is that every man should not have equal say," he stated.

He qualified his statement by drawing an analogy between the surgeon and his patient, saying that the patient may have criticism of the surgeon but certainly not the skill to perform an operation on himself.

Lessinger recounted to the gathering statistics which show that educators are more concerned with their skill as financial managers while not one single index measures their skill as educational managers.

"It would make much more sense if we moved from a 'per-pupil cost' to a 'learning-unit cost'; to focusing on the level of learning, not the maintenance of children in school."

Obviously aiming the question to those graduates about to enter the teaching profession, Lessinger asked why there should be a philosophy which permits educators to cover up their inadequacies by blaming their failures on the type of raw material they have to work with.

Beachcombing popular

Beachcombing for useful, unusual, funny, fantastic, or just plain beautiful bits of driftwood is getting to be one of the more popular pastimes of vacationists along our Pacific Coast.

It's a pastime, points out the National Automobile Club, that seems to have appeal for both sexes and all ages. You can see five-year-olds stuffing pockets and boxes with interesting bits of wood. And you can see 50-year-olds that collector's gleam in the eye, dragging home sizeable logs in truck and trailer.

Where does all this driftwood come from? Big rains wash out stumps. The flood waters of winter carry these branches and stumps along, rubbing them smooth on boulders and eventually dumping them into the ocean. There the waves take over, make the driftwood even smoother by grinding it against the rocky shore, and then cast it up upon the beach.

Some collectors look only for the useful in driftwood. From what they pick up along the shore, according to NAC, they make signs or fences for beach cottages. Many of them make chairs or tables for lawns or patios around these cottages.

Gifted with the humorist's eye, other collectors look for the funny, the bizarre, the caricature of fat man, fish, fowl, or herring. With them, it isn't always against the rules to add buttons for eyes, chips of wood for ears, and make other such changes.

Gifted with the eye for beauty, still other collectors look largely for the beautiful. Under the sand and grime of the rough wood lying on the shore they can detect elements of line, mass, and texture that will be brought out by a little judicious shaping and cleaning. These collectors polish such wood with fine sandpaper and with steel wool, often coat it with wax or use other techniques to bring out the rich colors and grains in their find. Such finds can end up as bases for lamps or as just pure pieces of decoration for table or wall.

Whatever the ultimate end of the driftwood, points NAC, the beginning is always fun. Strolling along a beach in the wind and sun, expecting to find soemthing good behind any dune, any large boulder, has satisfactions all its own. Why not try it this summer and find out for yourself?

C. Dennis Smith, left, is seminary area supervisor for El Monte and West Covina church stakes. The students awarded diplomas had attended one-hour daily classes, beginning in the ninth grade and continuing through high school, in the morning before public school opened.

Women's Auxiliary

The Women's Auxiliary to the San Bernardino County Medical Society installed the new 1970-71 officers and honored past presidents at a poolside luncheon held in the home of Dr. and Mrs. Terry Reynolds, SanBernardino.

Officers installed were the Mmes. James Mason, president; Ray Seavers, president elect; Cecil Saisinger, first vice president; Nicholas Krikes, second vice president; Shelby Jernigan, recording secretary; Rose Ballard, treasurer.

The auxiliary presented three nursing students with $100 awards for being top in their class. To date the auxiliary has provided 98 interest free loans to students in health career fields. Forty of these loans are presently in use.

PFC takes course

The 40-week course provides extensive training in the fire control system of the Nike Hercules high-altitude missile system.

Senior citizen property tax assistance

Many senior citizens are erroneously reporting their income when applying for senior citizens property tax assistance, and are thus going to receive less aid than they are entitled to, said Martin Huff, Executive Officer of the Franchise Tax Board.

Many of our elderly citizens have received an increase in their social security payments, Huff said; and they are reporting on their senior citizen tax assistance claim forms their current monthly income instead of the lesser amount which they actually received during 1969.

It is to their benefit to report the correct amount received in 1969, he said, because under this program the percentage of property taxes refunded is dependent upon the total income reported.

State general fund costs up last year

SACRAMENTO - Government cost expenditures from the State General Fund during the first nine months of Fiscal Year 1969-70 were 20.03 per cent ahead of the same period in 1968-69 while General Fund revenue receipts increased 8.85 per cent, State Controller Houston I. Flournoy announced.

Expenditures as of March 31 totaled $3,362,951,103 and receipts amounted to $2,781,827,411, a difference of $581,123,692 which was covered in part by surplus carried over from the prior year and in part by temporary loans from the various special funds. The unrepaid portion of the loans amounted to $334,500,000 on March 31 Flournoy said.

Heavy receipts from the personal income tax and other revenue sources during and after April are expected to eliminate the temporary debt, the Controller said. Borrowing from the special funds is an ordinary practice during the "dry period" of State revenues. Flournoy noted that on the same date a year earlier the General Fund owed the special funds $129,300,000.

General Fund cash revenues for the first nine months of 1969-70 were $226,169,542 greater than for the same period in 1968-69. Expenditures were up $561,201,825 fromthe prior year.

Flournoy said major factors in the revenue increase were greater liability and earlier payment on personal income taxes, more inheritance tax reports covering increased property values, increased federal funds and transfers from the State Health Care Deposit Fund into the health care receipts of the General Fund, and growth of taxable retail sales.

A new factor in expenditure growth was disbursement during March of $199,693,836 to reimburse counties for revenue "lost" as a result of the $750 homeowners property tax exemption. It was the first time such a payment had been made. Other expenditure growth was principally attributable to growing school enrollment from elementary through junior college, increased program and enrollment at the University of California, larger enrollment at the State Colleges, growing enrollment and cost of services in the health care benefits, larger bond interest and redemption requirements, and growth of both case load and payment level in social welfare categorical aid.

Disney characters parade for charity

"Disney On Parade," hit touring live stage musical, will appear at the Anaheim Convention Center July 1 through August 9 and features all of the famous Walt Disney characters performing live for the first time in one live 2 1/2 hour show.

The show is entirely different from anything ever seen at Disneyland.

The opening night proceeds go to the Florence Crittenton Home of Orange County with tickets available at a special booth in the "Home and Garden Show" at the Convention Center starting June 19, as well as the Convention Center box office starting June 22, plus all ticket agencies.

Large colorful settings ranging from a three-ring circus to a royal ballroom transform the Convention Center into a world of nostalgic fantasy for adults and sheer delight for youngsters as they meet their favorite Disney characters in person.

The Anaheim debut marks the 23rd city visited in the United States and Canada. Approximately 1.5 million people have seen the show.

Checks or money orders for reservations along with a self-addressed and stamped envelope should be sent to "Disney On Parade," Anaheim Convention Center, 800 West Katella, Anaheim, 92802. For ticket information call (714) 635-5000.

Ticket prices are $2.50, $3.50, $4.50 and $5.00. Evening performances are Tuesday thru Saturday at 8 p.m., with matinees Saturday at 2 p.m. and Sunday at 2 p.m. and 6 p.m.

Children 12 and under are $1.00 off for all performances except Wednesday, July 1.

'Carnaval de Veracruz'

If you enjoy Caribbean rhythms and customs you will enjoy "Carnaval de Veracruz", the new musical production at Padua Hills Theatre in Claremont.

The fiesta of songs and dances from Veracruz, a gulf state of Mexico, will run through July 25. Although the dialogue is in Spanish, the audience will have no difficulty following the simple plot of two suitors for one fair senorita.

During the fiesta a traditional pantomime is performed with tongue-in-cheek sobriety by the Players. In masquerade, they present a "Drama of the Heavenly Theatre", Masks and headdresses are worn in other scenes of this gay musical.

Curtain time is at 8:30 p.m. Wednesdays through Saturdays with matinees at 2:30 p.m. on Wednesdays and Saturdays. Each performance is followed by "Jamaica" a fiesta under the olive trees on the theatre grounds. The audience is invited to participate in the music, games and refreshments with the Players.

Padua Hills is located in Claremont, three miles above Foothill Blvd. on Padua Avenue.

Reservations are not always necessary but are recommended. The phone number is (714) 626-1288.

Reading program

Registration for the Pomona Public Library's Summer Reading Program, "Your World, and Welcome to It," will continue through August.

Two separate summer programs have been planned for elementary and junior high school students which will feature regularly scheduled special events in addition to reading activities.

Both programs are designed to give area children an opportunity to experience the activities and attractions that are featured in their world -- the Pomona Valley.

Youngsters in the 11 to 14 year-old-generation will be invited to attend five special events planned for the summer.

These include: "Saving Your World for Fun and Profit," a presentation on June 30 by a representative of a local distributing company explaining how aluminum cans may be collected to make money;

"Where It's Happening -- City Hall," a tour of Pomona's City Hall on July 14;

"News and Newsprint," a tour of the Progress-Bulletin newspaper plant on July 28;

"A Trip into the Reel World," an exploration of the world of films and film-making on Aug. 11;

And, "The Old World, a review of Old Pomona by Burton Cohoon, Special Collections librarian emeritus of the Pomona Public Library.

All events will begin at 2 p.m. in the Laura Ingalls Wilder Room.

Students who will be entering grades seven through nine in the fall may register for this program and receive a certificate of participation upon reading five books or attending five programs (or any combination of these activities).

Children may register for either program at any time during the summer.

Custom home

This custom home built in Walnut by contractor Bill Barr earned a Gold Medallion Home Award from the Southern California Edison Co. for use of such all-electric features as self-cleaning oven air-conditioning, heating and water heating.

State park campground

The campgrounds in 27 state park units are booked solid through the month of August, according to William Penn Mott Jr., Director of the California Department of Parks and Recreation.

The four beach parks filled by reservations throughout the month of August are Doheny, San Clement, San Elijo, and South Carlsbad State Beaches.

Family campsites are completely filled for the weekend of the 4th in: San Mateo County, Portola State Park; Santa Barbara County, Carpinteria and El Capitan State Beaches and Gaviota State Park; Santa Cruz County, New Brighton and Sunset State Beaches and Henry Cowell and Sonoma County, Armstrong Redwoods State Reserve; Ventrua County, Point Mugu State Recreation Area and McGrath State Beach.

Walnut boy killed

A Walnut youth was killed and his two companions were injured Thursday morning when their car struck a powerline pole along the Old Brea Canyon Road north of Currier Road.

The driver, Edward Fleming, 17, of 20950 Delphine Dr., Walnut, died at La Puente Community Hospital about an hour after the accident. The three boys were reportedly on their way to the beach.

Charles Thomas Wallace, 15, of 2330 Evergreen Springs Rd., and Norman James Stretch, 16, of 1986 Evergreen Springs Rd., both of Diamond Bar, were admitted to the La Puente Hospital.

They were traveling south on Old Brea Canyon Road when the driver swerved to the right then back to the left as he entered a curve, highway patrolmen said.

Fleming lost control and the sedan ran off the road and struck the pole. The accident occurred about 10 a.m. the driver was pronounced dead at 11:15 a.m. at the hospital.

Fleming, a student at Walnut High School, had been a member of the school's football and wrestling teams.

Funeral services were held Saturday at 1:30 p.m. at Todd's Memorial Chapel in Pomona.

He is survived by his parents, Mr. and Mrs. Sheldon Reed and two sisters, Joni and Traci Fleming, both at home.

Respect fire hazard

"Many of the same people who decry the pollution of our environment by 'establishment' organizations are those setting fires in our native brush and forest lands," Los Angeles County Fire Chief Richard H. Houts has declared in a special July 4th fire prevention message.

"We have experienced a marked increase in the number of brush and forest fires started by maverick campers who wantonly disregard the danger signs posted by the fire agencies," the chief said.

This, coupled with one of the driest seasons in years, gives rise to a potentially "black" 1970 season for our recreational and watershed areas, Houts said.

With July 4th holiday approaching, the chief urged people to leave their fireworks at home. Fireworks of all kinds are prohibited in brush and forest covered lands of southern California.

Subdivided lands act protection of buyer

By EUGENE BELLO
President, Ontario-Upland Chino Board of Realtors

How can one know if newly subdivided land being offered for sale is as represented?

Aside from the judgement that any person must use in accepting the claims of the developers, there is a special section of the California real estate law that gives the Real Estate Commissioner jurisdiction over subdivisions.

In essence, the Subdivided Lands Act is intended to protect against deceit and fraud in any subdivided land offered for sale in California.

The regulation applies to land located in California or out of state. Thus, subdivisions in resort areas of Nevada, Arizona, Colorado, even Hawaii advertised for sale in California are subject to California law.

Anyone who has reason to believe that deceit or fraud is involved can file a complaint with the commissioner.

The main provisions of the act are to require that anyone subdividing land for offering to the public must file a notice of intent with the commissioner.

The subdivider must also provide significant facts about the subdivision to the commissioner.

After the commissioner has reviewed the facts and satisfied himself that all pertinent ones have been disclosed, he issues a public report of his findings. The law requires that each prospective purchaser be given a copy of that public report.

To carry that precaution a step further, the regulations also require that a copy of the public report be given the management of any advertising medium intended to be used to offer the subdivided lands to the public.

The commissioner is not concerned with the physical aspects of the land beyond being sure that it can be used as represented and that it complies with local regulations for that use.

As a Realtor, I have people occasionally ask me if a particular subdivider is justified in predicting such a glowing future for investment there. I don't know. He has the same set of facts that the prospect has, so it's a matter of interpretation.

This is why many subdividers will not sell property to prospects unless they inspect the actual property personally. It's a good rule in reverse, as well. Don't buy property you have not seen.

Who really knows whether expanding economics will raise the value of that particular parcel of property in the future? An educated guess is involved, as in most decisions we make in life.

Probably the best guide is to decide if the property suits your needs now. Treat the future as a bonus. The way most property holds its value in California, and usually increases in value, changes are the bonus will include some extra benefits anyway.

Reduce Now to Have A New Figure For Summer

"I'm Really Going to Enjoy This Summer Now That I'm Down From A Size 14 To A Size 7," Says Santa Monica Woman.

"Before I began my Pat Walker program, I weighed 141 pounds — now I weigh 119. I wore a size 14 dress. My new swimsuit is a size 7. I was simply unable to lose weight and inches on my own," continues Nancy Murphy of Santa Monica. "I am actually wearing a smaller size now than I did when I was 14 years old. And I feel so much better, too. My husband and my family are almost as proud of my new figure as I am. This is one summer I am going to really enjoy, now that I can wear anything I want".

In this photo, Pat Walker poses with Nancy Murphy after she has lost a total of 41 inches and 22 pounds. Mrs. Murphy lost 5 inches from her underbust, 4 inches from her waist; 9 inches from her thighs and 4½ inches from her abdomen, for a total overall loss of 41 inches. Mrs. Murphy, a nurse by profession, appreciates the value of good health and a slim trim figure. "I feel better and lok better than I have in years," she stetes. "I can't over emphasize the wonderful feeling of being a size 7—and will really enjoy swimming this summer now that I have my new Pat Walker figure".

Cardinals score 2 wins during week

The La Verne Little League Cardinals had a successful week by coming up with two victories against one defeat. The week started out with a win over the White Sox and displayed strong pitching by Scott Williams, excellent defense and good, timely hitting.

In the second inning, Jeff Bennett, Gilbert Castro, Bart Avery, Mitch Sanford, Rusty Keene, Dennis Welch and Dave Baur all successfully reached first base and set the stage for a grand slam home run by Scott Williams. Before the dust had settled the Cardinals had scored eight runs and had the game won. Dave De Marzie hit a home run for the White Sox in the fifth inning.

The second win was a three to two thriller over the Dodgers and again Williams showed his pitching prowess by striking out eight and allowing only two runs. Dave Baur continued to dazzle the base paths with his daring and effective running.

On Saturday, the Cardinals lost to the Royals despite the efforts of Brad Snedeker who pitched very well and hit a home run over the left field fence.

Bad Flight

French astronomer Pierre Janssen was so intent on photographing the solar eclipse of 1870, during the Franco-Prussian War, that he risked German rifle fire to escape from the siege of Paris in a balloon. Unhappily, when he made his way by land and sea to the eclipse path over the African coast, rain hid the event.

Bonita 67 years old Had small beginning

Bonita High School has served LaVerne and San Dimas students since its beginning in 1903 in a vacant LaVerne store building. In 1904 it was transferred to the second story of the LaVerne Heights grammar school with a faculty of two teachers and an enrollment of thirty-four students. This was the beginning--Yesterday Bonita High School graduated 335 seniors.

The first actual site for Bonita Union High School was purchased on Bonita Avenue in 1905 and Durward Hall, the first building, was erected during that year and the high school accredited to the state university. Bonita continued to grow slowly until in 1921 the sharp increase of residents in the area showed enrollment of 350 pupils with 21 faculty members and nine new buildings.

Bonita continued to grow and in 1955 a decision was made to sell the old high school campus and build the present one. The "new" campus of Bonita High School was built and occupied in 1959 and during the 1969-70 school year Bonita reached its highest peak of enrollment in history, approximately 2,000 students and a faculty of 79 teachers.

SD Little League plays fast ball

By JAMES LOUGH

The Via Verde Mets, behind the brilliant one hit pitching of Robert Alexander, shut out the Pizza Royal Giants, 6-0.

Alexander struck out 10 Giants and issued no passes to post his fourth victory of the season, to go with one loss.

Andy Hegel's single in the third inning accounted for the Giants' offense. Mark Ford led the Met attack with two doubles and a single to raise his already lofty average.

Ford and teammate Jimmy Acquisto each scored two runs. Brice Black pitched a creditable game in taking the loss. Black's record stands at 5-2.

METS	000 024 6
GIANTS	000 000 0

WP - Alexander LP - Black. Battery: Mets - Alexander, O'Brien; Giants - Black, Loumagne. Hits: Mets - 8 Giants - 1.

The tough Astros gave the Dodgers some anxious moments before dropping a 2-0 decision to the Bums.

Dodger Rick Harriman threw a one hitter at Jess Belmontez' crew. The Astro's lone hit came on a fourth inning double by Harry Gibson. Ralph Chalifoux gathered two of the Dodgers three hits, and Rick Harriman's first inning RBI single accounted for the winner's attack.

Lefty Mark Martaccio went the distance for the losers and pitched a fine game in defeat, striking out 9.

Harriman fanned ten for the winners. Chalifoux scored both of the Dodger runs.

The Astros, an expansion team, have had their troubles this year, but have become increasingly tougher as their team begins to jell, and promise to come back strong in 1971.

WP - Harriman LP - Martaccio. Batteries: Dodgers - Harriman, Covington. Astros: Martaccio, Amplayo.

The Pirates kept their chances alive for a playoff berth in the American League by slipping by the improving Braves 3-2, as Kevin Pokrajac picked up the victory.

Pokrajac relieved starter Chuck Isbell in the top of the fourth and held the Braves for the balance of the game.

Mike Sheppard brought the Brave fans to their feet in the third inning when he hammered an 0-1 pitch high over the centerfield fence, with teammate Herb Grover on base. Grover went 2 for 3 and scored one of the Brave tallies. The Pirates played errorless ball in downing the challenging Braves. Jon Gillespie absorbed the loss, striking out 8 and allowing only 4 hits.

WP - Pokrajac LP - Gillespie. Batteries: Pokrajac, Isbell - Isbell - Pokrajac Braves: Gillespie, Sayer.

Cub pitcher Paul Ford won his eighth consecutive game without a loss in pitching the Cubs to a shutout victory over the Cardinals, who are battling the Pirates for a playoff berth in the American League.

Ford was superb as he fanned 14 and walked only 3 and allowed a bunt single. The lone hit was a well placed bunt by John Nuss in the fourth.

Slugging Scott Sanborn led the Cub attack with a first inning towering home run and two singles in four trips.

Cubs Koleson Lloyd, Jim Reif and Chuck Lacey had a pair of hits each to complement the Cub offense. The Cubs strengthened their hold on the American League lead with an awesome 12 hits.

Cardinal lefty Gil Ramierez struck out 5 and walked 8.

The Mets continued to hang tough in the National League by slipping by Jim Gillespie's Republic Braves 3-2. Curveballing Jimmie Acquisto picked up his 7th victory to go with 3 defeats. Acquisto fanned 13 and issued only 2 free passes.

It was a big day for Brave Herb Grover. The veteran lefty went 3 for 3, including two ringing doubles, to lead all hitters.

Brave Brian Sayer limited the winners to 3 singles.

The Mets, battling the Giants for the National League leadership, had a tough time with the Braves, and forced to come from behind to win.

The Cubs moved one more step toward the American League Championship and a playoff berth in swamping the Astros 13-2.

Scott Sanborn continued his torrid hitting pace, going 3 for 4, including one double and four runs scored.

Harry Gibson of the Astros went 2 for 3, including his second home run of the season. His other hit was a solid double.

Cubs Greg Bedford and Tommy Hester combined their efforts against the losers to fan 13, and issued only 3 passes. Art Amplayo relieved Gibson in the third, but the Cubs had the game well in hand.

CUBS	250 150 13
ASTROS	001 001 2

WP - Bedford LP - Gibson. Batteries: Gibson, Amplayo, Bedford, Hester, Ford.

The Giants kept pace with the Mets in the National League by easing past the tough Dodgers in a well played game.

Steve Loumagne beat Billy Bumstead in a duel that went to the wire. The Giants bunched 4 hits in the fourth inning to score their total output for the day, but it was enough to stifle the Dodgers.

Loumagne helped his own cause when he singled home Mark Lopez and Andy Hegel, and later scored on Perry Aris' double.

Billy Bumstead pitched a fine game also in losing, striking out 13 and issuing only two free passes, Loumagne fanned 6 and walked only one.

DODGERS	100 001 2
GIANTS	000 30x 3

WP - Loumagne LP - Bumstead.

Jack Clark won his fourth game against one loss as the Pirates moved into second place in the American League. Clark bested lefty Boby Olea, allowing only 3 hits, walking 2 and fanning 7, as well as helping his own cause going 2 for 3 at the plate, including a solid double.

Sonny LaFargue scored two runs and drove in one to aid the Bucs cause.

Chuck Isbell had the other Pirate hit.

Dale Whitney, John Dipple and Gil Ramierez pitched in with a hit each in the Card loss.

Machinist

Woman at the machine

The men have gotten over the novelty now, but when she first reported for class, Diane Smith was the center of attention. Her classmates were sure she had wandered into the wrong classroom. She hadn't.

Her class card definitely showed that she was indeed a member of the Machine Tool Procedures class. She's not the first woman to join the generally all male class. But she's the first one any of this year's students had come across.

Diane works for a small instrument manufacturer in LaVerne. She started there as a machine operator, not really trained for the job. The company started her training and she has done so well she is now supervising many machine operators.

She says she still takes a turn at the machines, to keep her hand in, ". . .because I just love it that much."

In her class at Mt. San Antonio College, Diane has produced an arbor press, which will be on display this Fall at the L. A. County Fair. And she is currently working on a set of fireplace tools. Her fiance suggested this project, ". . .to be used in our future home."

Being the only girl in a class is not new to Diane. She has taken Technical Drawing for two semesters, and was the very first girl to finish Basic Metallurgy, last summer. She earned an A.

Her instructor, Vic D'-Incognito, says Diane is an extremely industrious worker who really enjoys what she's doing.

Diane said she started taking these courses simply because she liked them, but now finds they are helping her in her work a great deal.

A resident of Diamond Bar, Diane already has earned her Associate in Arts from the College, in 1967. Her major then was physical education.

Appreciation cannot be deducted

A physician at a Veteran's hospital wasn't able to reciprocate for the usual "professional courtesy" under which doctors treat each other for medical services without charge.

Instead, he purchased $120 in gift certificates and gave them to doctors who had treated him. And he deducted the $120 as a medical expense.

The deduction was not allowed because he wasn't expected to pay any fee. The $120 was simply a gift, an expression of appreciation.

Morocco offers best of two worlds

By DONALD W. REYNOLDS
Publisher,
Bonita Publishing Co.

Marrakech, Morocco - Across the rainbow, east of the sun, west of the moon, at the back of the north wind lies the never never land of the fortunate kingdom of Morocco.

It offers its visitors the best of two worlds. It is Africa with European overtures; an independent Arab state - the nearest of the far away lands. First publicized by Bing Crosby, Bob Hope and Dorothy Lamour in their "Roads to ---" series, and still living up to the promises made by the tuneful trio twenty years ago.

It is a "republic" that hasn't had an election in years but benevolent King Moulay Hassan apparently rules his empire of more than fourteen and a half million subjects without the problems besetting most of the rest of the Arab world.

Marrakech, the second largest city, (Casablanca is first) was founded nine centuries ago and some of the ramparts of the early forts still remain along side palaces built in the last two hundred years.

Among its 6000 artisans organized into more than forty traditional corporations you find carpet weavers, metal craftsmen, potters and leather workers all brought together in a 24 hour a day, seven day a week county fair. In the heart of the city these workers come together to display their wares and bargain interminably as to price. Late in the afternoon the area is turned over to public entertainers: Acrobats, story - tellers, dancers, snake charmers and strolling water sellers. It's noisy, smelly, crowded and a real test of your sales resistance.

Girls in the briefest of mini skirts mingle with the more traditionally clad women in floor length Kaftans, hidden behind veils that leave only the eyes showing. Barbers and dentists, and letter writers set up shop along the narrow streets. You can rent or buy a camel along side a modern garage where guides implore you to hire a car -- which they will drive - and introduce you to all of the Arabian nights wonders - for a fee of course - that can start with an asking price of $50 and eventually wind up with an agreement calling for ten percent of the original price.

In another part of the city the government has sponsored a "one price" shop where the wary traveler can look at all of the fascinating handicrafts with no divertisements except an occasional very sweet and hot mint tea. Let's hope this works out, for like the majority of the more than 600,000 annual tourists, I was hooked for my share.

It will take another four months (the length of time it takes to weave a custom carpet) before I know whether Morocco is truly the marvelous trading center of the world as it appears to be, or just another cheap, over commercialized gyp joint. I'll anticipate, but not hold my breath!

Vandals strike Casa Colina playhouse

The handicapped children of the Casa Colina Hospital nursery school are sad and puzzled. Their sunny yellow and white fairy tale playhouse became overnight an ugly, burned out shambles. They don't understand why the little house with the peaked roof and curved walls isn't there now. They stare and point to the ruins and the charred ground around the spot. They ask difficult questions.

No one knows exactly what happened to the favorite playspot, although vandalism is suspected. The blaze was not discovered until too late to save the structure.

Because the children of the nursery school need a playhouse urgently, Mrs. Patricia Kertes, coordinator of the nursery program, has begun sketching a new playhouse. She has an idea too for a matching "barn." Richard T. Moore, hospital administrator, advises that both buildings will be built when funds become available, and that he is establishing a "Playhouse Fund" for this purpose.

Those interested in helping get the playhouse and barn built soon are invited to send their gifts to Casa Colina Hospital, 255 East Bonita Avenue, Pomona, Calif., 91767.

Readers' forum

Dear Editor:

During my four years as press and publicity chairman for the San Gabriel Valley District CFWC I have enjoyed the friendships and the whole hearted cooperation extended to me by the newspaper women (and in some instances men) in our district, and want you to know I have appreciated your wonderful help and collaboration over this period.

In June I will be turning this job over to a new press chairman and know she will receive the same consideration I have. I shall miss communicating with you but will be available if I can assist you or the new chairman in any way.

Sincerely, Hasta la Vista
Irene R. Scott

Dear Editor:

On behalf of the Vejar School Community Club and myself, I wish to thank you for the wonderful publicity and reporting you have given our club this past year.

We know that the success of many of our projects was directly due to you and your wonderful newspaper. I hope the Bulletin will continue the fine job of covering neighborhood news. It means so very much to the residents of this area.

Again I thank you and wish you and your family a happy summer.

SILENT MAJORITY

Each and everyone of us has to decide just which side of the law we wish to belong to. It is no longer possible to be neutral. It is no longer fashionable to be one of the "Silent Majority". If this country is going to stop our regression back to "Cave Man Tactics", we will have to take a stand and Support the law and Support those who enforce it.

I am specifically referring to Sunday, May 31's "Sharky Park" incident, in Pomona. A Police officer is sent out under orders - not just from his superiors, but from the judicial law makers, and the public who design those laws. They have no alternative, but to enforce these laws if they wish to collect the meager salaries we allot them.

Being subject to the same laws that they enforce, the only way they can operate is on a one to one basis. If a person breaks the law he is prosecuted. It is not necessary to know this person personally, but the Officer must have knowledge of this person's criminal act. Contrary to common belief, officers do not start each shift with a vendetta to arrest anyone they see or injure and maim anyone who gets in their way.

On the other hand the criminal element does not have prior knowledge of who is a bad officer and who is a friend. The gathering at Sharky Park did not single out any one officer because he had broken a law or code. They attacked any and every man there who was wearing a uniform. The "Chicanos" have repeatedly stated since that night that "The Police Over Reacted". Is it not a fact that they "Over Reacted", or is this term reserved for the police alone?

As they complain of the many injuries among their comrades, would not these injuries have been prevented if they would have refrained from interferring with the officers and their duties? As they picket for their rights, what happened to the rights of the men who are duty sworn to uphold the law? If they fear for the safety and lives of their loved ones, I fear for the life of my husband who is an officer. Policemen are human - They bleed and die just like anyone else - They have wives - children - and dreams for the future. When are we going to start protecting them with our support as they protect us?

Signed:
Mrs. R. B. Zbinden

.....

Dear Editor:

Having just read Don W. Reynolds' glowing account of Spain, I am concerned about his loyalty to our great United States.

It is casual remarks such as his "Just perhaps a so-called working democracy isn't the best of all lives!" that influence so many thoughts against this beloved country of mine. She may have faults, but by the Grace of God let's endeavor to remedy them not endeavor to overthrow them in favor of some ideology controlled by a "good" man today but a tyrant tomorrow.

Marine corp two year enlistments

Marine Corps again offers two year enlistments: Staff Sergeant Sid Peters announced yesterday that the Marine Corps is again offering a two year enlistment program on a first come first serve basis.

As before the program requires the New Marine to serve on active duty for a period of two years whereupon he will be released to an inactive reserve status and will not be required to attend reserve meetings.

Along with the two year program, the Marine Corps is still offering its three and four year enlisted programs and also its four year aviation technical training guarantee.

Upon graduation from recruit training, the new Marine is assigned to an occupational field and reports to his new duty station for further training.

Dum-Bells!

That's what they're calling the folks at Household Equity. And why Not? They been going around buying houses and giving folks much more cash for their equity than they can get anywhere else. And if they have a G.I. or F.H.A. loan, Household takes all the expenses. You don't have to be a Philadelphia lawyer to figure out how much cash you got coming. It's right down in black and white. And you can have your money in a day if you like — even if you're behind in your payments.

We called Bob Petkin Co. (They been out spending all that Household cash) and we asked Bob, "what goes with these Household guys, are they for real?"

"They sure are," said Bob. "They need lots of houses and they're willing to pay top dollar to get them. It's some sort of Tax deal. We've been appointed their first Household Equity Broker." (And they want a lot more to help them spend their money) "In Fact," mentioned Bob, "if your house is listed with a broker we will still buy it and we pay the commission." (We bought 9854 Rose, Montclair, 620 Madera, Ontario, both listed with Kathy Sell at Herbert Hawkins Co. Also 8535 LaVine, Alta Loma, listed with Bob Ellington at Cucamonga Realty) "We don't care where they are — from Los Angeles to Los Serranos — from Pomona to Fontana. We'll check 'em out."

"Between you and I," admitted Bob, "I think they're a little crazy myself. But they sure got lots of Cash. Why not give a call and talk to one of our dum-bells."
